

Implications of P/F or S/U grading schema in Bb Learn

Instructors who upload final grades from Bb Learn to Campus Solutions use the grading schema that is assigned to the course when it is originally created by the SIS integration process. Most courses use the Campus Connection Undergrad and Grad GRD grading schema. With this schema, the acceptable grade values include: A, B, C, D, I, F (Failure – Attended), FN (Failure - Stopped Attending), FNN (Failure - Never Attended).

Please note: the values of P/F or S/U are not supported and Bb Learn will return the following error message (see Figure 1).

the final grade column: CC Final Grade (GRD):

Figure 1

In these cases, instructors should leave the CC Final Grade value blank for those students approved for P/F or S/U grades. The rest of the students' grades can be entered in Bb Learn as usual.

Then, import the grades from Bb Learn to Campus Solutions.

All the regular grade values will come across (i.e A, B, C, etc) and the instructor will need to manually enter P/F or S/U for the respective students (see Figure 2).
