

INSTRUCTOR WELCOME KUDOS

Sample Email to Student

Welcome to my class - I hope you have had a great start to this semester at the University of North Dakota!

As your instructor, I want to share some information about Starfish, one of many great resources at UND. One of Starfish's features is **My Success Network** which lists all your current instructors and academic advisors. By using the **Service** catalog, you have the ability to schedule appointments with a variety of offices and individuals across UND, such as Career Services and Study Abroad. If you have a question or concern but are unsure where to go, the **Request Help** button can help you get in contact with the right office or individual for your needs. You can sign into Starfish with your UND username and password by clicking [here](#).

I am also providing a link to some of UND's [Important Dates and Deadlines](#) which you will find helpful as you progress through the semester.

Sincerely,

[Creator Name]
