3. Introductions of 2017-18 UAC members present were made.

4. Debra introduced the UAC review assignments for the year. Joan has been removed from schedule due to availability issues, but will consult as time allows. Reviews are divided among team members with one team member taking the lead in initiating a review plan with the team. Ideally the team should complete a few reviews together to ensure that the process is well understood before individual or paired assignments are made. All reviews should include the perspective of at least two team members before coming to the full committee for review. Surveys and non-academic reviews will be done as a committee.

5. Debra and Shari walked the committee through the access and submission process for reviews. Teams will need the plan and the report for each department to complete the review. Shari showed the committee members how to access the plan and reports online using a live demo. Shari also demonstrated the Blackboard site login process.

6. Debra and Shari led review of the non-academic, undergraduate, and graduate program review templates. Shari indicated that the templates had been recently updated to reflect “years of reports reviewed”, re-wording of question 3 for better clarification, additional top bullet added to question 4, and the removal of the Essential Studies questions. Overall, not major changes, just areas of clarification for reviewers.

7. With the questions on the review templates being the same, the committee discussed further clarification/streamlining by using only one template and adding check boxes to differentiate categories (non-academic, undergraduate, and graduate, cert., etc.). 1. A meeting of the University Assessment Committee was convened on 2016; Shari Nelson chaired the meeting.

2. Minutes from the May 12, 2016 meeting were approved.

3. Introductions were given. There was a review of potential meeting times. Shari will look into revising time frames to avoid Thursday conflicts if possible.

4. There was a review of committee description including purpose, membership, terms, etc. It was discovered that the list reviewed was not the most current, so this will be updated for the next meeting. There was also discussion as to whether the head of Essential Studies Committee should be added as an ex-officio member of the UAC Committee. If this amendment is needed, it will be pursued through the Senate Executive Committee.

5. Joan Hawthorne and Shari Nelson provided an overview of the new proposed program assessment review process for the 2016 – 17 year. With this new format, information will be collected across years rather than only one year at a time to provide a larger overview of what is working and what is not. The new format may be helpful for those interested in tracking assessment activities at the college level and also helpful for Higher Learning Commission review. There was clarification that in using the new review form, the review needs to review the assessment report from the department as a basis for responding to these questions, not former reviews by the UAC committee. There was also clarification that reviewers are paired together so that there is joint input and reflection into the reports provided; a ‘divide and conquer’ approach is not recommended.

Corrections to UAC Program Assessment Review form:
Add a statement after years of review section. “As you consider these questions, please reference the time period of the last three years”. There was discussion regarding the rating of “P” which denotes a partial completion of requirement. It
was decided to keep the form as designed until a norming session had been conducted to ensure consistency of interpretation.

There was some discussion as to what was required for a review at the certificate level. Clarification was provided regarding the need for review only if the Certificate program was free-standing from an approved curriculum. Those located within a stated academic major would be considered by the Higher Learning Commission as similar to a minor in an area of study.

6. An assignment was given for each committee representative to update the list of programs from their represented college. Members were asked to consult with their Dean’s office to get a corrected list, including a listing of any free-standing departments that are not currently part of any degree offered. There was some discussion of what might be added to the comment section of the form, including comments regarding assessment of the quality of the departmental assessment work overall, and whether there had been a change in the quality of a given department over the time frame.

7. Shari stated that she offered to be chair next year with Debra Hanson as vice-chair. The proposal was voted upon and approved.

She would like to look back over the past three years’ worth of program data, find patterns in the data to help the committee change/improve its function, and track information that can be used in the assurance review for HLC. In addition, this kind of process would serve as an opportunity to revisit the assessment committee’s own review processes and identify any needed changes. The committee members support this idea.

2. Minutes from the September 6, 2012 meeting were approved.

3. Updates on committee membership; Ken Ruit is the MED designee and Brad Myers is the LAW designee. We still need a Graduate School designee. Given the new membership, Nancy will send out a doodle seeing if there might be a better time to meet.

4. There was a handout and a brief overview/reminder of surveys and non-academic programs to be reviewed this semester. The proposed pairs to review the surveys and programs are: Paul and Odella, Joan and Jerath, Mary and Deborah, Krista Lynn, Brad and Ken, Roxanne and Shari. In the spring, Ken and the Graduate designee will pair up.

5. There was a discussion on how we might get students engaged in survey results. There were a list of ideas:
   a) “Assessment News You Can Use”-each time a survey is reviewed, post a blurb or bullet points on the Assessment website for students, in the language they would like to read it
   b) Post on the UND homepage, twitter, facebook
   c) Joan will collect for this semester and in January decide where to post
   d) Add survey-type information to the freshmen packet at summer orientation – get them involved with survey/assessment early
   e) Eventually get to something of “this is what you said”-“this is what we did”
   f) Can provide an insight to decision-making at UND

6. On the OIR Assessment Tool a question was added. The question is “What results about this survey would students find interesting?” The committee voted upon and approved.

7. The committee reviewed the NSSE Survey and will resume reviewing it at the next meeting.

5. Mary reported on the Honors Program. The review was approved as written.

6. The committee reviewed the OIR Graduating Student Survey. A general question regarding the value and use of the data results was asked. The committee recommended paying attention to asking questions that are relevant to all students, including our distance learners, as well as ensuring questions included modern examples, such as including Twitter rather than MySpace when asking about social networking. Items related to learning goals should mirror Essential Studies as opposed to the prior general education requirements; Joan and OIR, along with Tom will evaluate the wording of these questions.

7. In reviewing the OIR Tools template, questions #4, #5, #8, and #13 can be eliminated. Wording on #6 should reflect Essential Studies as opposed to general education. In lieu of question #8, OIR will provide better visibility of the tools already created that link survey data to similar questions on other surveys. Carmen will bring samples to an upcoming Assessment Committee meeting.

8. OIR will put out a new feedback review form with an empty date field (currently 2008-09 shows).

1. A meeting of the Senate University Assessment Committee was convened on Monday, March 8, at 2:00 p.m.;  
   Barbara Combs chaired the meeting.

2. Minutes from the February 8, 2010 meeting were approved with a correction.

3. Carmen discussed the CLA testing. There were better participation rates from the seniors compared to the
   freshmen. In total, 126 seniors signed up for the test. At one session, 6 students completed and 12 were
   underway when the CLA server went down. Plans were made for students to come later and complete the test
   (but no students choose to do this); these students were still paid. CLA accepted 10 of the 12 incompletes.
   The committee was concerned about including the “incompletes” so Carmen will ask CLA about this.
   Carmen/IR staff as well as the committee members who proctored mentioned that testing went well and that
   the Nursing lab worked out great. The results of the freshmen/senior CLA tests will be completed this
   summer. According to the Voluntary System of Accountability (VSA) agreement, we need to test/post scores
   from CLA (or other testing application) every four years.

4. The academic review for Pharmacology, Physiology and Therapeutics was reviewed, discussed, and approved
   with corrections.

5. The committee discussed the coding key on the academic assessment activity review form and agreed that it
   was somewhat subjective.

6. The academic review for the undergraduate Teaching and Learning was reviewed and approved with
   corrections.

7. The academic review for the graduate Teaching and Learning was reviewed and approved with corrections.

8. The schedule for tentative meeting times is March 29, April 12, April 19, April 26, and May 3 to make sure
   that all of the reviews are completed prior to the end of year/spring assessment luncheon. Joan needs the
   reports to return to the departments before the luncheon.

7. The sign up sheet for UAC Academic Reviews for 2009-2010 was passed around for members to sign up to review departments.

9. With the passage of SB 0910-25, the Student Body President looses his/her power to appoint these students, and now the student positions of U-Senate are elected by the Student Body. These 10 elected positions, each student must serve on two U-Senate Committees. With this change, our committee should be fully staffed by two students.

4. As an aside, Joan reported a summary of survey reviews from the prior three years was assembled and forwarded to the Undergraduate Learning Working Group.

5. The USAT review was approved with corrections. Mary noted changes from General Ed to Essential Studies between fall and spring semesters. It is apparent students do not understand the meaning of “capstone” per USAT responses. Joan explained the design of the form is intentional so faculty can determine if students are picking up on the ES goal for which the course is designed.

6. The Women’s Center review is not ready for review.

7. The committee discussed spring meeting dates. At this time, Nancy will send out a Doodle to determine if a time is available where all committee members can meet, otherwise future meetings will be on Mondays at 2 p.m.

Teams were formed as: Darla & Shane, Cassie & Ruth, Barb & JoAnne, Joan & Dexter, Kirsten & Wayne, Mary & Krista, and Fred & Joan/Student #2. A sign up sheet was passed around. Joan recommended members not sign up to review their home departments. Separate reports will be completed for graduate and undergraduate programs within a department. A single report will be completed for multiple undergraduate programs or multiple graduate programs within a given department.

10. Overview of 2009-2010

Sign-up and Discussion of Scheduled OIR Reviews

i) **Alumni Outcomes Survey**

ii) **Campus Quality Survey** (Employee Survey): Do we continue to review this one? How does it inform us about student learning? How often should we review the survey results?

(1) Description: The Campus Quality Survey is an instrument sponsored by Performance Horizons that was developed by adapting categories used in the prestigious Malcolm Baldrige National Quality Award and the Presidential Award for Quality to fit the educational environment. The survey instrument offered 91 statements including 10 North Dakota University System (NDUS) questions for faculty and staff to respond to. Participants are asked to rate the University of North Dakota from two perspectives: How It Is Now and How It Should be for the items based on how they feel the programs, services, and activities are currently meeting the needs of students and employees. This survey has been administered in the fall of even numbered years, starting in 2002. [SEE SAMPLE]

iii) **Employer Satisfaction Survey**: Do we continue to review this one? How might it inform us about student learning? How often should we review the survey results?

(1) The employer satisfaction is part of the accountability measures of the "Roundtable Report" that were enacted by the 2001 and 2003 North Dakota legislatures. The North Dakota University System have partnered with the firm of Noel-Levitz to conduct this survey. All other 10 North Dakota University System institutions are participating in this survey as are other U.S. universities and colleges. The collection of information from employers about graduates is vital and appropriate to a university’s understanding of whether it is successful in meeting its educational goals. [SEE SAMPLE]

iv) **Environmental Assessment Survey**: Do we review this one? How might does it inform us about student learning? How often should we review the survey results? OIR no longer administers the Survey; instead housing does this:

(1) Description: Environmental Assessment Survey (Housing)

A survey initiated in 1991, designed to assess the demographic characteristics of the students living in the residential halls at the
University of North Dakota as well as their satisfaction toward housing staff, maintenance and custodial staff, policies and procedures, facilities, dinning services, programming, and hall government. Survey results are used to implement a number of changes in the residence halls.

v) **Faculty Survey (HERI)**

vi) **National Survey of Student Engagement (NSEE):** How often should we review the survey results?

vii) **Senior Survey (ACE-CIRP SR):** Not ready for review.

viii) **Withdrawing/Non-Returning Student Survey (ACT):** Do we review this one? How might does it inform us about student learning? How often should we review the survey results?

(1) Description: This survey helps identify students' reasons for leaving UND. The instrument groups 48 "reasons" in the areas of personal, academic, institutional, financial, & employment as to why a student left. Each of these areas are identified as a major reason, minor reason, or not a reason. This survey was first conducted in 2003 and has been administered annually since then.

1. A meeting of the University Senate Assessment Committee was convened on Monday, April 6 at 1 p.m., chaired by Darla Adams

2. Minutes from the February 23 meeting were approved as circulated.

3. Joan distributed and discussed the updated report plan for administering the CLA (Collegiate Learning Assessment) for compliance with the VSA (Voluntary System of Accountability). There is a workshop on the administration of the CLA on Thursday, April 9 at 1-2 pm and also on May 5. Members who are interested in learning more about the administration of the CLA may register on the CLA website for the upcoming workshop.

4. Joan brought up the idea of the Assessment Committee possibly hosting a luncheon meeting with a designee from every reviewed department as well as those departments to be reviewed in the next cycle. The department chairs and deans would also be invited. Perhaps there could be a short presentation and then the attendees could break out, by college, to have discussions about their assessment reviews/efforts. After discussing the idea, Joan suggested that a small group get together to plan such event. A sub group was formed including Joan, Fred, Mary, and Naima.

5. A CLA sub group committee was formed including Joan, Carmen, Sue Erickson, Darla and Barbara that will meet a couple of times to discuss the administration of the CLA after attending the workshop webinar.

6. Barbara mentioned an update for improving the assessment review template. A series of checkboxes will be added toward the end of the template so that members can check off the types of documents reviewed while preparing the review. The committee approved of this change. Joan will update the template and we will place this into use beginning next year.

7. The academic, non academic reviews and survey reviews for all years are posted on the Assessment website. The password and directions to the reviews will be sent to the members.

1. A meeting of the University Senate Assessment Committee was convened on Monday, January 26th at 1 p.m., chaired by Darla Adams

2. Minutes from the December 1st meeting were approved as circulated.

3. VSA “Voluntary System of Accountability”

   a) Joan provided a report from Dean’s Council regarding VSA and CLA testing. The Dean’s Council is fine with the CLA, the best test suited and component of the VSA. The Dean’s Council requested more concrete information regarding cost, motivation for students to complete the CLA, and proposed schedule (is fall 2009 a feasible start time). A subgroup from the Assessment Committee was formed to look at these issues related to the CLA. This subgroup will bring their suggestions back to the Assessment Committee for their approval in February prior to Joan bringing it back to the Dean’s Council in March.

   b) Joan attended a Student Government meeting to obtain suggestions from the group regarding student incentives for taking the CLA. Suggestions such as monetary incentives, gift certificates, extra credit, prizes, an Assessment Day in which all students would be involved and winning a seat in the Presidential Suite at a Hockey game including food and inviting a friend were suggested. Dan Tienter suggested that students involved in Student Organizations could be recruited for the CLA and monetary incentives offered that would then be donated to a Student Organization of their choice. Also, monetary incentives or drawings for students scoring in the top of their quartile were discussed as a possibility by the group.

   c) There is a question if transfer students would be included in the testing. Joan will check further on this. She will also schedule the subgroup meeting.

4. As a review process for the continued members and a learning process for the new members, the committee did a group review of the assessment portion of the annual report for Aviation Instruction. The members then circulated a sign-up sheet for the 2009 reviews. Joan will send letters to departments regarding aligning their goals with the new Essential Studies goals. This will make it easier for the reviewers.

The MAPP is $7,400 and then $14.80 per test per student if over 500 students. The writing exam is another $5/test.

   Ideas for the MAPP (other) testing: for freshmen - Getting Started/Welcome Weekend; for seniors - Financial Aid-Exit Counseling session, build into a class, an assessment day, capstone classes. UND is not currently a member of VSA but is carefully considering it and most likely will be in the near future. Most of our peer institutions have registered with the VSA. The three ‘value added’ tests that are included in the VSA are the CAAP, MAPP, and CLA. The committee members will look at the information on the VSA website and will research each of the three ‘value added’ exams individually. This information will be brought back to this committee so that members can provide a recommendation to the campus. Assessment members who obtain helpful information regarding any of these exams should send these links of interest to Nancy and the rest of the committee. The Council of Deans is waiting to hear from the committee regarding our recommendations on which test(s) UND should use. The Council of Deans meet in January. The tests are costly. The tests will be given to 1st semester, 1st year students and last semester Senior students. There was discussion regarding incentives to recruit students to take the tests. There was discussion regarding the possibility of holding student focus groups to discuss the matter of student recruitment for these exams.
