## **Annual Report for the Faculty Handbook Committee, 2020-21**

*Submitted by Adam Matz, current Committee Chair, on behalf of former Chair, Dustin McNally.*

November 2021

---

The Faculty Handbook Committee met 7 times over the academic year.

Over the 2020-21 academic year the Faculty Handbook Committee met many times to develop or update multiple policies. A new Course Syllabus policy was developed that specifies syllabus requirements and syllabus content for courses, where previously there was none.

The handbook's Final Exam policy was setup to allow for alternative assessments such as papers, projects, presentations, etc. instead of requiring an exam for every course. The policy now allows for a process for courses to have due dates for alternative assessments earlier than the scheduled final exam which will allow courses more flexibility to assess students in a format that is suitable for the course. At the request of the Deans, the External Review policy was updated to clarify that faculty positions that do not have a research component do not need to have External Reviewer for promotion.

The Faculty Parental Leave Benefits policy was updated with new definitions to allow the benefits to occur for adoption placement and other situations instead of just the birth of a child. At the request of the VPAA office, the policy also clarified that the paid parental benefits run at the same time as any possible FMLA benefits.

An update for Leave Benefits policy was requested by the VPAA office to clarify the legal wording on FMLA. [This work was continued into the present academic year.]

---

*I would like to give a special thanks to the prior Faculty Handbook Committee members for their service. Members of the committee from the prior academic year included Dustin McNally (Chair), Stephanie Johnson, Sandra Moritz, Cristina Oancea, Kathryn Rand, Debbie Storrs, Jeffrey VanLooy, and I. Dear Academic Policies and Admissions Committee members,

During the 2021 New Student Transition program, we have found that the use of student specific permission aids in the ease of allowing students to register for courses who are waiting to transfer in a pre-requisite course or for courses that require department consent. We would like to continue reducing registration barriers for undergraduate students by having all undergraduate courses set to student specific permission. Currently, many first year courses are already set as student specific permission and we have received positive feedback from departments, academic advisors, faculty, students, and their parents on the seamless registration process for these courses. When courses are set as permission number based rather than student specific, students run into many barriers when attempting to register. This causes frustration and confusion during the registration process. Having all courses set to student specific permission would resolve many issues such as:

1. Student confusion on where to input the permission number in Campus Connection
2. Student, academic advisor, or department assistant error with invalid permission numbers
3. Student, academic advisor, or department assistant transposing the permission number
4. Common frustrating scenarios with permission number based courses (i.e., students often have to take the course out of their shopping cart, log out of Campus Connection, log back into Campus Connection, re-add the course into their shopping cart, and re-enter the permission number)
5. Decrease student frustration with inconsistencies (sometimes given a number and sometimes allowed to register by student specific permission) by standardizing expectations across campus

**We propose that all undergraduate courses change to student specific permission within Campus Connection starting spring 2022.**

We have reached out to the Registrar, Scott Correll, who is supportive of this proposal as well. We would be happy to help academic advisors, department staff, and instructors learn how student specific permissions differ from permission numbers. Please let us know what the next steps are if you are supportive of this proposal.

## **2. Sick Leaves, Dependent Leave, Disability Leave, and Family Leave**

### **A. Sick Leave**

Sick leave and dependent leave are benefits granted by the institution to faculty and academic staff to use for short-term and long-term illness. For purposes of eligibility for short-term sick leave, faculty and academic staff are defined as being benefited employees who are tenured, probationary, or on special appointment. For purposes of eligibility for long-term sick leave, faculty and academic staff members are defined as benefited, full time. Faculty whose special appointment is less than full-time will be prorated for both short-term and long-term sick leave. Faculty and academic staff members are entitled to family leave as defined under family leave in SBHE Policy 607.4 Sick leave does not accumulate from appointment period to appointment period and has no cash value upon the employee's separation from the institution.

### **B. Short-Term Sick Leave**

A faculty or academic staff member may be compensated with pay at the rate of 1.50 days per contract month because of short-term illness. Faculty and academic staff, who take leave under this policy, must make reasonable efforts to ensure that his/her work responsibilities are covered and must inform his/her department head of their expected absence prior to the start of the scheduled work period. The department head will keep a record of leave taken and may require medical verification for short-term illness.

### **C. Long-Term Sick Leave**

If inability to work is appropriately documented, a faculty and academic staff member who is sick or disabled and has used their short-term leave may be granted long-term sick leave. Long-term sick leave may be granted, at the rate of 75 percent of his/her regular base salary, for a period of up to five months, or until the end of the contract term, whichever occurs first. If medical documentation is not sufficient to grant long-term leave, then the faculty member's pay may be reduced commensurate with workload. The faculty and academic staff member shall submit a long-term sick leave application to the appropriate department head/chairperson; the department head/chair must obtain written approval from the dean to grant long-term sick leave. The department is responsible for making arrangements to cover the work responsibilities of the faculty and academic staff member. If a second or subsequent request for long-term sick leave occurs within five years from the end of the most recent long-term sick leave, the appropriate vice president must authorize the request. Family Medical Leave Act (FMLA) leave can be designated at any time and can run concurrently with long-term sick leave.

### **D. Disability Leave**

A faculty or academic staff member who cannot return to work after taking long-term sick leave may be eligible for disability benefits under the institution's TIAA disability insurance. The faculty and academic staff member should contact Payroll Services to determine eligibility.

### **E. Dependent Leave**

A faculty or academic staff member who wishes to attend to the needs of an eligible family member who is ill or to assist them in obtaining other services related to their health or wellbeing may use a portion of his/her short-term sick leave benefit. Eligible family members include the employee's spouse, parent (natural, adoptive, foster, and step-parent); child (natural, adoptive, foster, and step-child); or any other family member who is financially or legally dependent upon the employee or who resides with the employee for the purpose of the employee providing care to the family members. Short-term sick leave used for this purpose shall not exceed forty hours per calendar year.

### **F. Family Leave**

Faculty and academic staff members are entitled to family leave in accordance with SBHE Policy 607.4 and the Family and Medical Leave Act of 1993. Family leave is defined in SBHE Policy 607.4 as "an

unpaid leave of absence for the birth, adoption, or foster placement of a child; or for the serious health condition of the employee, the employee's parent, child, or spouse."

  - [SBHE Policy 607.4 – Sick and Dependent Leave; Family Leave](#)
-

Tracked changes from the Faculty Handbook committee appear below. These edits were instigated initially by Becca Bergee and Heather Wages from Academic Affairs and Human Resources & Payroll, reviewed and further modified by the Faculty Handbook Committee, to clarify and update the handbook to reflect current policies and practices;

## 2. Sick Leaves, Dependent Leave, Disability ~~Leave~~Benefits, and Family Leave

### ~~A. Sick Leave~~

Sick leave and dependent leave are benefits granted by the institution to faculty and academic staff to use for short-term and long-term illness. For purposes of eligibility for short-term sick leave, faculty and academic staff are defined as being benefited employees who are tenured, probationary, or on special appointment. ~~For purposes of eligibility for long-term sick leave, faculty and academic staff members are defined as benefited, full-time.~~ Faculty whose ~~special~~ appointment is less than full-time will be prorated for ~~sick or dependent leave both short-term and long-term sick leave. Faculty and academic staff members are entitled to family leave as defined under family leave in SBHE Policy 607.4.~~ Sick leave does not accumulate from appointment period to appointment period and has no cash value upon the employee's separation from the institution.

### ~~AB. Short-Term Sick Leave~~

A faculty or academic staff member may be compensated with pay at the rate of 1.50 days per contract month because of short-term illness. Faculty and academic staff, who take leave under this policy, must make reasonable efforts to ensure that ~~their/his/her~~ work responsibilities are covered and must inform ~~their/his/her~~ department head of their expected absence prior to the start of the scheduled work period. The department head will keep a record of leave taken ~~and may require medical verification for short-term illness.~~

**Commented [MA1]:** Per Heather Wages, "removed because this is not required for short term sick leave."

### ~~BC. Long-Term Sick Leave~~

If inability to work is appropriately documented, a faculty ~~and or~~ academic staff member who is sick or disabled and has used their short-term ~~sick~~ leave may be granted long-term sick leave. Long-term sick leave may be granted, at the rate of 75 percent of ~~his/her/their~~ regular base salary, for a period of up to five months, or until the end of the contract term, whichever occurs first. If medical documentation is not sufficient to grant long-term leave, then the faculty member's pay may be reduced commensurate with workload. The faculty and academic staff member shall submit a long-term sick leave application to ~~Human Resources to initiate the process and approval the appropriate department head/chairperson; the department head/chair must obtain written approval from the dean to grant long-term sick leave.~~ The department is responsible for making arrangements to cover the work responsibilities of the faculty ~~and~~ academic staff member. If a second or subsequent request for long-term sick leave occurs within five years from the end of the most recent long-term sick leave, the appropriate vice president must authorize the request. ~~Family Medical Leave Act (FMLA) leave can be designated at any time and can run concurrently with long-term sick leave.~~

**Commented [MA2]:** Per Heather Wages, "added to clarify process for requesting leave."

### ~~CD. Disability ~~Leave~~Benefits~~

A faculty or academic staff member who cannot return to work after taking long-term sick leave may be eligible for disability benefits under the institution's TIAA disability insurance. The faculty and academic staff member should contact Human Resources & Payroll Services to determine eligibility.

### ~~DE. Dependent Leave~~

A faculty or academic staff member who wishes to attend to the needs of an eligible family member who is ill or to assist them in obtaining other services related to their health or wellbeing may use a ~~portion of his/her/their~~ short-term sick leave benefit ~~and if approved, long term sick leave.~~ Eligible family members include the employee's spouse, parent (natural, adoptive, foster, and step-parent); child (natural, adoptive, foster, and step-child); or any other family member who is financially or legally dependent upon the employee or who resides with the employee for the purpose of the employee providing care to the family members. ~~Short-term sick leave used for this purpose shall not exceed forty hours per calendar year.~~

**Commented [MA3]:** Per Heather Wages, "added to clarify that long term sick leave can be utilized for dependent leave if approved."

## EF. Family Leave

Faculty and academic staff members ~~are entitled to may be eligible for federally protected and unpaid~~ family leave in accordance with SBHE Policy 607.4 and the Family and Medical Leave Act of 1993 (FMLA), ~~as well as the UND Faculty Parental Leave Benefits Policy~~. Family leave is defined in SBHE Policy 607.4 as "an unpaid leave of absence ~~for the birth, adoption, or foster placement of a child; or for the serious health condition of the employee, the employee's parent, child, or spouse~~ ~~available to eligible employees for the birth, adoption, or foster placement of a child; or for the serious health condition of the employee, the employee's parent, child, or spouse.~~" If the faculty member is eligible for FMLA, any other leave take (e.g., parental, short or long term sick leave) shall count toward the twelve (12) weeks of leave ~~guaranteed under FMLA.~~

~~An FMLA request should be submitted to Human Resources to run concurrently with paid leave benefits for the following common serious health conditions as follows but not limited to:~~

- ~~• conditions requiring an overnight stay in a hospital or other medical care facility;~~
- ~~• conditions that incapacitate you or your family member (for example, unable to work or attend school) for more than three consecutive days and have ongoing medical treatment (either multiple appointments with a health care provider, or a single appointment and follow-up care such as prescription medication);~~
- ~~• chronic conditions that cause occasional periods when you or your family member are incapacitated and require treatment by a health care provider at least twice a year, and~~
- ~~• pregnancy (including prenatal medical appointments, incapacity due to morning sickness, and medically required bed rest).~~
