Dear Faculty Handbook Committee Members,

There are three sections in the faculty handbook related to academic advising that we would like to recommend changes to.

- The first section is under:

Section I. Responsibilities & Privileges

IV. Faculty, Promotion, Tenure, and Evaluation Guidelines

4. Faculty Expectations & Responsibilities

C. Teaching and ~~Advising~~Mentoring

All faculty with teaching requirements included in their contracts are expected to demonstrate teaching effectiveness at the level of performance expected at the faculty member's academic rank, to contribute to the Department's instructional needs and the mission of the University, and to utilize best practices consistent with the faculty member's discipline and the Department's priorities.

Teaching includes the discovery, appraisal, and innovative distribution of knowledge to the community of students, the profession, and to society at large with the goal of fostering exceptional learning, enhanced critical thinking, and the knowledge, skills, and abilities to be lifelong learners and engaged community members.

~~Advising~~ Mentoring includes, but may not be limited to: help with ~~course selection; timely degree completion~~; experiential learning; career guidance; co- and extra-curricular selection; mentoring capstone, research, or other scholarly projects; and other factors impacting a student's success. Effective mentoring requires an understanding of student development and the ability to have conversations about the holistic needs of students. Faculty mentors are expected to collaborate with professional academic advisors assigned to their department, school, or college to ensure proper course selection, timely degree completion, and overall student wellbeing.

A faculty member must be prepared for teaching in ~~his/her~~their subject area, and demonstrate substantive command of the subject as well as appropriate pedagogical technique. Required degrees, qualifications, specialty certifications, and experience, including expertise in clinical or professional practice, shall be determined by the appointing Department. Ongoing development in teaching expertise and subject- matter knowledge is expected at each level of academic rank.

Effective teaching requires creation of a learning environment that fosters student learning and supports diversity of thought and opinion. Evaluation of a faculty member's teaching effectiveness must include significant student input drawn from the courses taught by the faculty member during the period under review.

Evidence of teaching effectiveness may include, but is not limited to, student, colleague, and administrative evaluations; honors, awards, or other recognition; preparation and/or

publication of textbooks, case studies, or other teaching materials; contributions to curricular design and implementation; creative or innovative teaching techniques; interdisciplinary instruction; and theses, dissertations, independent studies, and research or similar experiences completed under the faculty member's supervision as well as other advising activities.

A faculty member is responsible for preparing, or otherwise appropriately contributing to the preparation of, teaching materials, such as course syllabi, course activities, texts, readings, and resources, and, where appropriate, to post content within electronic learning-management platforms. When faculty develop new courses, programs, and curricula for use by themselves and others, these materials must evidence relevance and contributions to a successful learning environment.

A faculty member is expected to engage in assessment of student learning, and shall demonstrate evidence of planning, implementing, and appropriately evaluating student learning experiences. A faculty member is expected to utilize tools to increase student retention and student success in ways consistent with effective teaching and learning.

- The second is under:

Section III. Teaching Policies & Procedures

III. Student Advising, Office Hours

One of the important obligations of UND faculty members is to be available for advising students. ~~Department chairpersons often find it necessary to call on faculty members to help in the advisement of undergraduate majors. Collaboration between faculty mentors and professional academic advisors is important to the success of undergraduate students served by both.~~ Members of the Graduate Faculty have an important responsibility for advising graduate students, for service on their advisory committees, and for serving as thesis or dissertation advisers. In order to carry out these and other individual advising responsibilities, all faculty members with advising, mentoring, and/or teaching responsibilities are asked to set aside several hours each week for office hours and to post a listing of these hours in a readily accessible place. The University encourages continuing communication between faculty and students ~~to enhance the advisement process.~~ ~~Regardless of whether academic advising in a college and/or academic department is mandatory or voluntary, ultimately it~~ is the student's responsibility to meet the stated requirements for the degree sought, as listed in the appropriate catalog or bulletin. Every student is held accountable for complying with the information contained in the catalog ~~and the Time Schedule of Classes for each term~~. Registration also is the student's personal responsibility.

University Registrar, 11-10-98

- The third is under:

Section III. Teaching Policies & Procedures

VIII. Academic Concern of Students

1. Academic Advisement

Academic advisement ~~and mentoring are~~ an integral part of the student's university experience. Faculty members ~~with mentoring, advising, and/or teaching responsibilities are~~ expected to provide ~~mentoring to students, including referrals to resources they may need to help them academically and wholistically. Professional academic advisors are expected to provide~~ accurate information to students regarding their chosen program of study, degree requirements, registration procedures and petitions, as well as to refer them to the appropriate student service office as necessary. ~~Deans will assign students to advisors according to procedures established at each college or school.~~

Vice President for Academic Affairs and Provost, 11-14-02

A. Student Services

~~Extensive services are available on campus for a wide variety of student needs. For descriptions of each office, consult the UND Academic Catalog.~~

- ~~Admissions~~
- ~~Career Services~~
- ~~Counseling Center~~
 - ~~individual counseling~~
 - ~~testing services~~
 - ~~career counseling~~
 - ~~substance abuse counseling and prevention~~
 - ~~group counseling~~

Commented [PK1]: We recommend eliminating this section as it woefully out of date and would need constant revision to keep up with changes across campus. This information can be found elsewhere and referrals are now most often made through Starfish.

MEMO:

TO: Senate Executive Committee (SEC)
From: Faculty Instructional Development Committee (FIDC)

Dear Senate Executive Committee:

As a follow up to our correspondence last month, we are attaching the revised charge for the FIDC as a Microsoft Word document in two versions: 1) with changes tracked and 2) a clean version. As you will see, the membership details are the only substantive change.

Our review of Outstanding Faculty Awards (our primary committee activity since MIRA started), will proceed as normal in December and our existing committee will handle that task without the new members. (Currently only five of the eight UND colleges are represented by faculty, with the remainder of the colleges represented by student members.)

We ask that the new members, representing all eight UND colleges as well as representatives of VPAA the Provost wants to delegate, begin in January. The work of the committee will include establishing priorities and initiatives, along with assessment metrics, for the new FIDC funding over the remainder of this school year. This necessitates the committee size be expanded from 6 to 11 faculty, effective as soon as possible for full UND representation. This will allow one representative per college, except for A&S which will have 2 representatives. We are currently missing membership from CoNPD, CoPBA, and Law, and would need two at large members as well. Please see the attached charge.

The SEC's Dr. Deb Worley, has been attending our FIDC meetings, and can clarify any details.

Respectfully,

Matt Gilmore, 2022-23 Chair of FIDC
