ADA Compliant
Automatic
The Sloan SF-2100 and SF-2150 Electronic Pedestal Hand Washing Faucets operate by means of an infrared sensor. When the user enters the sensor’s effective range, the Solenoid activates the water flow. Tempered water flows from the Faucet until the user steps away. The Faucet then automatically shuts off.

Hygienic
The ultimate in sanitary protection — there are no handles to turn or buttons to push. Helps to control the spread of infectious diseases.

Economical
Automatic operation provides water usage savings over other faucet devices. Reduces maintenance and operation costs.

Warranty
1 year (limited)

Compliant to:
