Brief Alcohol Screening and Intervention for College Students

TRAINING OPPORTUNITY FOR FACULTY AND STAFF

Are you in a position where you may have conversations with students surrounding alcohol use?
What is your comfort level talking with students about their alcohol use?
Would you like to increase your effectiveness with these behavior change opportunities?

The UND Counseling Center is proud to host a full day training on Brief Alcohol Screening and Intervention with College Students (BASICS). BASICS is an evidence-based prevention program designed to engage students to consider their own risk level with regard to their alcohol use.

Participants will be provided the opportunity to practice and sharpen their skills on how they engage with students on behavioral change topics with special emphasis on alcohol use. The morning session will focus on developing skills from Motivational Interviewing techniques. The afternoon session will emphasize understanding of alcohol prevention research and applying effective interventions with college students.

Trainer Info: Dr. Jessica Cronce is a leading researcher in the field of substance abuse prevention for college students. Dr. Cronce is an assistant professor in the Department of Counseling Psychology and Human Services and the Director of the Family and Human Services program at the University of Oregon.
