Re: NDSA Attendance Expectations

Whereas, the North Dakota Student Association (NDSA) is the representative body of North Dakota students and makes policy decisions that affect UND students, and

Whereas, the University of North Dakota Student Senate is the representative body of the students of the University of North Dakota at both the campus and state level, and

Whereas, as elected and appointed student leaders, Student Senators and Student Government Executives should be involved in representing UND Students, especially on the state level, and

Whereas, the University of North Dakota has the largest voting delegation during NDSA meetings but often does not fill it, and

Whereas, it does not cost students to attend NDSA meetings, and

Whereas, NDSA is an excellent leadership and networking opportunity for students, and

Whereas, although this is not a requirement of office, it is an important aspect of being a student representative.

Therefore, be it resolved that Student Senators and Student Government Executives are encouraged to attend at least one NDSA meeting each semester, and

Therefore, be it further resolved that all Student Senators and all Student Government Executives are strongly encouraged to attend the NDSA meeting hosted by the University of North Dakota on October 25th-26th, 2013.
