Date: February 1st, 2015
Re: Support of the Student Managed Investment Fund

2 Whereas, the Student Managed Investment Fund has become a distinguished example of integrating real-world experience into the classroom here at the University of North Dakota, and
4 Whereas, SMIF has provided students with the opportunities to foster the growth of their career interests such as attending national conferences and competitions for investing, and
6 Whereas, these opportunities not only promote the learning of students within the Fund, but also advance the representation of the University of North Dakota on a national scale, and
8 Whereas, the Student Managed Investment Fund has taken the burden on themselves to fund the various opportunities they offer throughout the year, and
10 Whereas, the Fund has only been able to allow a finite number of students to experience these opportunities due to the constraints of cost.
12 Therefore, be it moved that Student Government support the continuation of the growth and opportunities given to students through the Student Managed Investment Fund, and
14 Therefore, be it furthest moved that $960 be allocated from the Student Government general account to mitigate the costs taken on by attending these conferences with the Student Managed Investment Fund.
