Date: 10/10/2018

Re: Digital Newsletter and Constituent Feedback

__________________________________________________________________________________________

Whereas, the primary duty of Student Government, and its Senators, is to represent the interests of the student body, and

Whereas, more often than not, members of the student body either do not know who their representative is, or do not know what Student Government does, and

Whereas, one of the most direct lines of communication is through email via students official UND/NDUS emails, and

Whereas, a monthly digital newsletter may provide the student body with knowledge of Student Government happenings and its members, and

Whereas, the newsletter may provide the student body the opportunity for direct communication with members of Student Government to foster new debate and ideas;

Therefore, be it moved that UND Student Government supports the joint construction of a monthly digital newsletter by the Public Relations Director, or equivalent position, and members of Student Government, and

Therefore, be it further moved that the digital newsletter includes a segment where members of the student body may submit requests or ideas for the Student Government to consider, and

Therefore, be it furthest moved that Student Senators have access to the data collected from these newsletters.
