Date: 10/10/2018

Re: Constituent Outreach and In-Person Communication

Whereas, the duty of Student Government is to serve as a “liaison between the student body and the faculty and administration,” and

1. Whereas, members of the student body may not know who serves on Student Government or what the body does, and
2. Whereas, direct face-to-face communication is an important part of building relationships with constituents and provides the opportunity to foster new ideas for the University, and
3. Whereas, engagement events such as meetings, forums, and other activities are a great way to engage the UND Student Body with their respective representatives;

Therefore, be it moved that UND Student Government will make greater attempts to connect with the student body, and

1. Therefore, be it furthest moved that Senators shall attempt to better engage the student body by hosting an engagement event at least once in their term, be that individually or with other Senators.
